

SAFER

Neighbourhoods

Three STEPS to keep in touch

with policing in your neighbourhood

Every community across Derbyshire has a Safer Neighbourhood Team (SNT), working in partnership with local agencies to address your concerns.

WWW

Website – www.derbyshire.police.uk/

Each of our teams has a page on our website. Visit your area's team page where you can:

- Keep up-to-date with local community policing news
- See your local officers
- Receive information on events in your area
- Follow easy links to contact your team
- See priorities set by the team in consultation with the community, and even submit suggestions yourself
- Gain access to 'Crime Mapping' allowing us to show you where crime is happening in your neighbourhood

f

Facebook

The Facebook page for Derbyshire Constabulary includes news, appeals and features from the force, customised for your area. Like the page and you will receive these updates as they are published.

The registration process for Facebook allows us to customise the items that are relevant for your area, however by visiting the full page you can also view all the releases across the county.

t

Twitter @

Keep up-to-date with latest policing news in your community, including upcoming events, police surgeries and safety advice by following your local team.

Head to Twitter, search for:

@
and click 'follow'. You will then start to receive messages as your local officer tweets from the beat.

For further information or help and guidance please contact your Safer Neighbourhood Team on **101** or use the links on the website www.derbyshire.police.uk/
